Profile

- 1.5 Year of experience in designing and developing responsive, user-friendly websites using HTML, CSS, JavaScript, and jQuery and Shopify, and more.
- Proficient in front-end development technologies, with a focus on creating clean, maintainable, and visually appealing websites.
- Strong ability to integrate design principles and user experience (UX) best practices to ensure functional and attractive web pages.
- Actively expanding technical skills by learning React to enhance front-end development capabilities and stay up-to-date with industry trends.
- Collaborative team player with a passion for problem-solving, ensuring smooth development processes and high-quality web solutions.

Professional Experience

Front-End Developer & Designer
LeaveCode Technologies
May 2024 – present
Responsibility:

- **Developed and designed custom websites** for a diverse range of clients using HTML, CSS, jQuery, and other front-end technologies, delivering high-quality, responsive, and user-centric web solutions aligned with client specifications.
- **Leveraged Wix and Go High Level platforms** to build and deploy websites and landing pages, ensuring seamless integration with client business goals and meeting tight project timelines.
- **Collaborated closely with project managers and development teams** to gather client requirements, identify key objectives, and design scalable web solutions that meet client needs while maintaining technical excellence.
- **Managed multiple client projects** simultaneously, working directly with clients to incorporate feedback, manage expectations, and ensure timely delivery of high-quality websites under fast-paced, deadline-driven conditions.
- **Provided tailored solutions** for clients by translating business needs into creative, functional, and visually engaging web pages, balancing design aesthetics with seamless user experience (UX).
-
